

Wiring And Electronic Assembly Technician

Avalon Sciences Ltd

Location: Somerton, Somerset, England
Rate: Dependant on Experience
Contract: Permanent
Working Hours: Days - 40hrs/wk

Job Description:

Avalon Sciences is the leader in borehole seismic recording equipment. All equipment is designed, and manufactured in house by highly skilled engineers and technicians. The popularity of the GeoChain system has led to rapid expansion; the company now employs over 50 people at its base in Somerset.

We now need a wiring and assembly technician for our electronics and instrumentation assembly department.

The ideal candidate should possess the following attributes and skills: -

- Excellent vision
- Excellent manual dexterity
- Keen eye for detail
- Good concentration
- Methodical and Logical thinker
- Ability to follow task instructions

This is a full time post, although part time work may be considered for the right candidate.

Working in a clean and modern environment, pay is competitive depending on experience. Candidates without previous experience of electronic assembly and wiring should not be deterred from applying. It is anticipated that the successful candidate will undergo internal training, including industry recognized qualifications.

Apply in writing, detailing previous experience and employment history, together with work based and personal references to: -
